PROFILE INFO

Data Analyst & Frontend Developer with experience turning data into actionable insights and building responsive, user-friendly web applications. Skilled in data analysis, visualization, and front-end development, delivering solutions that are both functional and intuitive.

EXPERIENCE

FRONTEND DEVELOPER – CONTRACT / FREELANCE 2022 – PRESENT.

- Built responsive, user-friendly web applications using HTML, CSS, JavaScript, and React.
- Collaborated with distributed teams using Git, Slack, and project management tools.
- Optimized interfaces for performance, accessibility, and cross-browser compatibility.

DATA ANALYST | SEVENUP BOTTLING – CONTRACT FEB 2024 – PRESENT.

- Collected, cleaned, and analyzed large datasets to generate actionable business insights.
- Built interactive dashboards and reports using Power BI, Tableau, Looker studio, Excel, and SQL.
- Collaborated with remote teams to identify trends, optimize processes, and support decision-making.

ACHIVEMENT

• 2025 – 2026

Leveraged data analysis to identify inefficiencies in material usage, reducing waste and improving overall productivity by 35%.
